

Agreement for Removal of Litter, Manure and/or Process Wastewater from an AFO
(base on Appendix A of: TDEC Division of Water Pollution Control, Chapter 1200-4-5 Permit Effluent Limitations and Standards, July 2004).

The conditions listed below help to protect water quality. These conditions apply to litter, manure and/or process wastewater removed from an AFO. The material covered by this agreement was removed on

569.80 from the facility owned by Daniels Poultry, located at _____.

- A. The litter, manure and/or process wastewater must be managed to ensure there is no discharge of litter, manure and/or process wastewater to surface or ground water.
- B. When removed from the facility, litter, manure and/or process wastewater should be applied directly to the field or stockpiled and covered with plastic or stored in a building.
- C. Litter, manure and/or process wastewater must not be stockpiled near streams, sinkholes or wells.
- D. Fields receiving litter, manure and/or process wastewater should be soil tested at least every two or three years.
- E. A litter, manure and/or process wastewater nutrient analysis should be used to determine application rates for various crops.
- F. Calibrate spreading equipment and apply litter, manure and/or process wastewater uniformly.
- G. Apply no more nitrogen than can be used by the crop.
- H. A buffer zone is recommended between the application sites and adjacent streams, lakes, ponds, sinkholes and wells.
- I. Do not apply litter, manure and/or process wastewater when the ground is frozen, or on steep slopes subject to flooding, erosion or rapid runoff.
- J. Cover vehicles hauling litter, manure and/or process wastewater on public roads.
- K. Keep records of locations where litter, manure and/or process wastewater will be used as a fertilizer.

T. Tim Ferguson am the person receiving litter, manure and/or process
(name) wastewater and I understand the conditions listed above.

ANNUAL REPORT

Operation Name:

Date Submitted:

1. Number and types of animals on site.	Types:	Number:	
	Barnier	84.0000	
2. Estimated amount of litter, compost and/or process wastewater generated in the previous calendar year.	Amount:		
	640.00 tons		
3. Estimated amount of litter, compost and/or process wastewater transferred to a 3rd party in the previous calendar year.	Amount Transferred:		
4. Total number of acres for land application covered by the nutrient management plan.	Acres:		
	67		
5. Total number of acres under control of the landowner that were used for land application of litter and compost in the previous calendar year.	Acres:		
	67		
6. Summary of all litter, compost and/or process wastewater discharges to waters of the state from the production area that have occurred in the previous calendar year, include date, time and approximate volume.	Date:	Time:	Volume:
7. The current version of the Comprehensive Nutrient Management Plan was developed and/or approved by a certified nutrient management planner.	Yes/No Comments:		
	Yes		
I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
